## ABOUT US

## Over 10 Years of Experience in Architecture Education

The Box Learning Studio is an architectural education institution dedicated to developing industry relevant skills through structured, studio based learning. Established in 2016, we provide focused, high quality education that bridges the gap between academic study and professional practice. Our approach is grounded in practical application, technical competence and design thinking, supported by guided instruction, real world project work and continuous academic engagement. We integrate up to date resources, industry aligned content and modern digital tools to ensure our programmes reflect current architectural practice and professional expectations.

The curriculum is reviewed and updated regularly to maintain relevance in a continuously changing industry. At The Box Learning Studio, we develop confident and capable design thinkers who are prepared for the demands of the architectural field. Our focus is applied learning, portfolio development and professional readiness. We are committed to delivering a structured and supportive learning environment that empowers students through clarity, consistency and guided academic development.

## OUR VISION

*"To spearhead the delivery of superior and accessible architectural education through cutting-edge technology, empowering individuals to excel in the field of architecture."*

## OUR MISSION

*"To be recognised as a leading provider of architectural technology education, dedicated to delivering unparalleled quality and encouraging accessibility for aspiring professionals."*

## OUR EDUCATION PHILOSOPHY

At The Box Learning Studio, we believe that exceptional architectural professionals are not developed through the volume of information they receive, but through the depth of their understanding and the quality of their education. Our philosophy is centred on purposeful learning, where every module, project and studio experience contributes to meaningful academic and professional development.

We are committed to an educational model that combines technical excellence, creative exploration and practical application. Through structured studio based learning, industry relevant modules and continuous academic guidance, we cultivate graduates who think critically, communicate effectively and approach architecture with confidence and professionalism. Our commitment extends beyond delivering a qualification.

We strive to inspire curiosity, encourage innovation and develop individuals who are prepared to contribute positively to the built environment. Every aspect of our programme is designed with one objective in mind: to provide an educational experience that reflects the standards, expectations and future of the architectural profession.

## ACCREDITATION

[CLICK HERE: SAQA QUALIFICATION LINK](#)

**NSC [National Senior Certificate] Level 4  
NCV [National Senior Vocational] Level 4**

## DURATION

Full Time / 1 Year / Day Classes [Monday - Friday]

## MODE OF DELIVERY

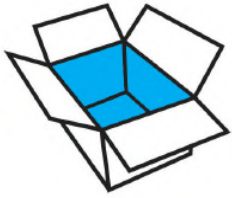

Contact Classes at Glenvista Campus Johannesburg South  
Online Classes from Anywhere in South Africa

## RECOGNITION OF PRIOR LEARNING

If a potential learner possesses substantial work experience but falls short of meeting the entry requirements for the programme, they may consider applying for qualification entry through an "access" route. The RPL application is scrutinised against the qualification's entry criteria. An applicant aiming for acceptance within this programme via RPL is required to compile a well-organised portfolio showcasing completed work for assessment. This portfolio serves as a systematic record of the candidate's prior learning evidence, substantiating their expertise and experience. It may also encompass proof of knowledge or skills acquired from diverse sources. External and internal assessors will meticulously evaluate the portfolio against the admission requirements and selection criteria of the qualification.

## SACAP REGISTRATION

After successfully completing the programme, the learner may apply to the South African Council for the Architectural Profession (SACAP) for registration through the applicable apprenticeship pathway. Upon successfully completing the prescribed apprenticeship programme and meeting all applicable SACAP requirements, the learner will be eligible for registration as a Professional Architectural Draughtsperson.

### How To Register for 2027

Step 1: Download an application form from our website, complete it & e-mail it to the email address above, include a copy of your ID as well as your latest grade results. If you have completed any other tertiary courses please send those results as well.

Step 2: We will review your application and send you a letter of acceptance, enrolment forms & reference number. You will then complete the enrolment forms and email them to us.

Step 3: Pay your registration fee using your allocated reference number, and you're done!

Individuals interested in learning more about professional registration with SACAP [South African Council for the Architectural Profession] should contact the institute directly and receive all the necessary information prior to registration of any programmes.
